RJ45 Face Plate

FPA1-01/02

FPBS-01/02

FPS1-01/02

FPCL-01/02

FPAG-01/02

FPAS-01/02/03/04

The FPA1-01 and FPA1-02 is a finish mount single and dual part plate designed for use with Litech RJ45 Modular Jack (or AMP Compatible Jack). These faceplate come with dust cover which will protect the jack for confirmation. Standards package includes two mounting screws for installation and two screw hole plugs. The FPS1-01 and FPS1-02 design which cover the base plate after mounting the screws, give a smooth and elegant finish surface. The standards package includes 2 mounting screws, labeling tag and voice/phone insert. FPMB is a modular surface mount box designed for use with one or two Litech Modular Jacks. This surface box can be mounted or a flat surface using screws or double sided tape provided
